About Me

Informatics undergraduate (GPA 3.77/4.00) with full-stack engineering experience across five internships, shipping production features used by 250,000+ end users. Builds and independently deploys backend systems using Go, Gin, and GORM with GitHub Actions CI/CD, alongside production frontend experience in React, Next.js, and Angular. AWS-certified with hands-on exposure to PostgreSQL, MySQL, Redis, Docker, and message queues.

Education

Sepuluh Nopember Institute of Technology, Surabaya
Informatics Undergraduate Student | GPA 3.77/4.00

Aug 2023 - Expected Nov 2026

- Laboratory Assistant of the Information Intelligent Management Laboratory.
- Unggulan Scholarship Awardee, recognized for academic excellence and active contributions.
- Teaching assistant for database system and web programming course.
- Actively participate in competitions related to my major: Satria Data, PKM, P2MW

Working Experience

Philip Morris International - PT HM Sampoerna
Software Engineer Intern

May 2026 - present

- Developed on-demand features for the AYO ecosystem (AYO Principal, AYO Mitra) using Angular and React, reaching 250,000+ external users and multiple internal teams.
- Remediated 10+ AI-flagged security and code-quality findings — including missing exception handling and insufficient logging — improving application reliability and security posture.
- Collaborated with cross-functional teams in an Agile environment, participating in sprint planning, daily stand-ups, and code reviews.

Flexoo Software House
Freelance Frontend Developer

Oct 2025 - present

- Developed client-facing frontends across multiple domains, including the BEM FTK institutional landing page and the Masela CRS industrial application, optimizing for fast load times and high performance.
- Implemented 10+ responsive pages and components from Figma UI/UX designs across client projects, supporting both desktop and mobile users.
- Integrated 10+ REST API endpoints for data display, form submission, and business workflows.

AssistX Enterprise
Frontend Developer Intern

Jan 2026 – Apr 2026

- Built frontend for a CCTV surveillance and control management system used by major enterprise clients, including BCA, BNI, and Mandiri.
- Achieved a 100% QA test-case pass rate while maintaining high application performance across releases.
- Integrated frontend with backend services via REST APIs to deliver reliable end-to-end functionality, working closely with backend engineers in an Agile workflow to meet client deadlines.

PT Telkom Infrastruktur Indonesia
Frontend Developer Intern

Nov 2025 – Feb 2026

- Built Dreambox, an internal idea-submission platform (also used externally for team recruitment), using Next.js and Tailwind CSS, delivering 20+ reusable UI components.
- Designed responsive, accessible interfaces achieving a Lighthouse Accessibility score of 96 and Performance 100, Best Practices 92, SEO 100.
- Wrote Cypress end-to-end tests and integrated REST API endpoints, collaborating with backend engineers to ship end-to-end features for the TIF 3 team.

Projects

Centralized Personal Management System

Personal Project

Go, Gin, GORM, Next.js, PostgreSQL · GitHub Actions CI/CD to VPS

- Designed and built a full-stack platform for expense/income tracking and a link shortener, with a single Go/Gin/GORM backend serving multiple frontend clients (personal portfolio site, link shortener, tracker).
- Set up a GitHub Actions pipeline for continuous deployment (push-to-deploy) to a self-managed VPS.

EzTest — Online Quiz & Tutoring Platform

Personal Project

Go, Gin, GORM, Next.js, Redis, RabbitMQ, MinIO · GitHub Actions CI/CD to VPS

- Built a platform for tutors to create and administer quizzes, using Redis for caching, RabbitMQ for asynchronous processing, and MinIO for file/object storage.
- -Designed the backend API and data model from scratch with Gin and GORM; deployed via an automated GitHub Actions pipeline.

Bayucaraka Reimbursement System

Personal Project

Go, Gin, GORM, Next.js · GitHub Actions CI/CD to VPS

- Digitized a manual, paper-based reimbursement process for a student organization into a full-stack web application, reducing processing time and errors.
- Owned the system end-to-end — schema design, API, frontend, and deployment.

Leadership Experiences

Schematics 2025

Mar 2025 – Nov 2025

NPC – Head of Organizing Committee

- Led a 9-member team to organize competitive programming and CTF competitions end-to-end, coordinating scheduling and technical requirements for participants and judges.
- Built a custom Discord bot to automate participant communication and streamline competition management.

Perhimpunan Pelajar Sains Nasional

Head of Academic Management Division

Sep 2023 – Nov 2024

Associate of Academic Research and Science Division

Oct 2022 – Sep 2023

- Organized academic programs and coordinated with subject-matter specialists to improve the quality of educational activities.
- Managed administrative workflows for Olympiad training and community outreach; designed Earth Science problems for district-level tryouts.

Achievements

- Awardee of Unggulan Scholarship by Ministry of Education and Culture Republic of Indonesia
- Participant of KMI (Kewirausahaan Mahasiswa Indonesia) Expo 2024 in Kendari
- Good predicate in Data Mining Test (DMT) International Earth Science Olympiad 2023
- Bronze medal National Science Olympiad (OSN) in Earth science field 2022

Skills

Languages: Go, Python, TypeScript, JavaScript, PHP, SQL

Backend: Node.js, Gin, GORM, Express.js, Laravel, REST API, JWT, OAuth

Frontend: React, Next.js, Angular, Tailwind CSS, Figma

Databases: PostgreSQL, MySQL, MongoDB, Redis

Infrastructure & DevOps: Docker, GitHub Actions, Jenkins, AWS, GCP, RabbitMQ, MinIO

Testing: PHPUnit, Cypress, Playwright

Soft Skills: Communication, leadership, adaptability, problem-solving

Courses and Certifications

- AWS Academy Graduate - Cloud Foundations AWS, Dec 2025
- AWS Academy Graduate - Cloud Security Foundations AWS, Dec 2025
- AWS Academy Graduate - Data Engineering AWS, Dec 2025
- Business Analysis and Process Management Coursera, Jan 2025
- Latihan Keterampilan Manajerial Mahasiswa Tingkat Dasar XXXI , HMTC, 2024

Languages

Indonesia - UKBI Score 708 | **English** - EFL Test Score 530 | **Mandarin** - Basic Proficiency
